

SYNTAL® ACRYL SLATS FOR BENCHES

The innovative material in shipbuilding:
suitable for all outdoor deck areas

SYNTAL® ACRYL - slats are mounted on metal bench frames for many years of weatherproof service, no replacements or repairs necessary.

Enduring, significant cost savings

Existing wooden slats can be replaced on site, reducing time need for re-fitting.

The advantages of **SYNTAL®ACRYL** SLATS FOR BENCHES

- very high colour fastness to light and UV
- impact resistant, highly stable, resilient and scratchproof
- weight identical with that of wood
- sawing, drilling, bolting can be carried out on site
- material worked in much the same way as wood
- all sizes possible (cross section, length)
- requires no upkeep (e.g. sanding or painting)
- no splintering - surfaces remain smooth
- wide range of colours and wood tones
- graffiti easily removable - simply wipe off
